

NPE-A2 and NPE-S2 Condensing Tankless Water Heaters

The best selling
high-efficiency
condensing
tankless water
heaters in
North America

Innovative advancements in the NPE-2
condensing tankless water heaters make it
easier than ever to go tankless.

NPE-2 PREMIUM EFFICIENCY CONDENSING TANKLESS WATER HEATERS

Navien...the proven leader in condensing tankless, makes it even easier to sell, install and set up with new NPE-2 series

Cuts installation time in half

Thanks to using 1/2" gas pipe and 2" PVC venting, you can install a Navien tankless water heater in about half the time as competitive tankless heaters. Not to mention, Navien EZNav™ intuitive controls with setup wizard makes startup a simple and fast process.

Fewer callbacks, longer life, faster heating

Navien was first to offer dual stainless steel heat exchangers which helps extend the life of the unit by resisting corrosion.

Saves energy, easier on the planet

Navien condensing stainless steel heat exchangers recover extra heat that would be lost in non-condensing units. Lower CO₂ emissions and low exhaust temperatures allows for less expensive venting materials like schedule 40 PVC.

NPE-2 temperature rise

| Temp Rise (°F) | 150S2 GPM (L/m) | 180A2/S2 GPM (L/m) | 210A2/S2 GPM (L/m) | 240A2/S2 GPM (L/m) |
|----------------|-----------------|--------------------|--------------------|--------------------|
| 35 | 6.8 (26) | 8.4 (32) | 10.1 (38) | 11.2 (42) |
| 40 | 5.9 (22) | 7.4 (28) | 8.8 (33) | 9.8 (37) |
| 45 | 5.3 (20) | 6.5 (25) | 7.8 (30) | 8.7 (33) |
| 50 | 4.8 (18) | 5.9 (22) | 7.1 (27) | 7.8 (30) |
| 55 | 4.3 (16) | 5.3 (20) | 6.4 (24) | 7.1 (27) |
| 60 | 4.0 (15) | 4.9 (19) | 5.9 (22) | 6.5 (25) |
| 65 | 3.7 (14) | 4.5 (17) | 5.4 (20) | 6.0 (23) |
| 70 | 3.4 (13) | 4.2 (16) | 5.0 (19) | 5.6 (21) |
| 75 | 3.2 (12) | 3.9 (15) | 4.7 (18) | 5.2 (20) |
| 80 | 3.0 (11) | 3.7 (14) | 4.4 (17) | 4.9 (19) |
| 85 | 2.8 (11) | 3.5 (13) | 4.2 (16) | 4.6 (17) |
| 90 | 2.6 (10) | 3.3 (12) | 3.9 (15) | 4.4 (17) |
| 100 | 2.4 (9) | 2.9 (11) | 3.5 (13) | 3.9 (15) |
| 110 | 2.2 (8) | 2.7 (10) | 3.2 (12) | 3.6 (14) |
| 120 | 2.0 (8) | 2.5 (9) | 2.9 (11) | 3.3 (12) |
| 130 | 1.8 (7) | 2.3 (9) | 2.7 (10) | 3.0 (11) |
| 140 | 1.7 (6) | 2.1 (8) | 2.5 (9) | 2.8 (11) |

NPE-2 DHW capacity

| Models | Natural gas (BTU/H) | Propane gas (BTU/H) |
|--------------|---------------------|---------------------|
| NPE-150S2 | 18,000-120,000 | 18,000-120,000 |
| NPE-180A2/S2 | 10,000-150,000 | 10,000-150,000 |
| NPE-210A2/S2 | 12,000-180,000 | 12,000-180,000 |
| NPE-240A2/S2 | 13,300-199,900 | 13,300-199,900 |

NPE-2 operating cost

| | | |
|-----------------|------------|--------|
| Navien tankless | 179 therms | \$195* |
| Other tankless | 209 therms | \$228* |
| Standard tank | 269 therms | \$293* |

*Based on Energy Guide cost estimates using \$1.09 per therm of natural gas. Cost is in US dollars.

U.S. Green Building Council LEED Points*

| Water heater | Location | Recirculation |
|--------------|----------|---------------|
| 1.5 Points | 2 Points | 3 Points |

Lower HERS home index score*

*Please consult your Energy/LEED consultant.

NPE-2 warranty

| Application | | Labor | Parts | Heat exchanger |
|----------------------|--------------------------------------|--------|---------|----------------|
| Residential | Standard or controlled recirculation | 1 year | 5 years | 15 years |
| | Uncontrolled recirculation | 1 year | 3 years | 5 years |
| Commercial or Combi* | Standard or controlled recirculation | 1 year | 5 years | 8 years |
| | Uncontrolled recirculation | 1 year | 3 years | 3 years |

*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications. For complete details please refer to the full warranty at Navieninc.com.

NPE-A2

NAVIEN PREMIUM EFFICIENCY ADVANCED CONDENSING TANKLESS WATER HEATERS

Our advanced ultra high efficiency tankless technology with built in recirc pump, buffer tank and more

ComfortFlow®

NPE-A2 built-in recirculation system

Navien's patented ComfortFlow® system is the first to include a buffer tank, recirculation pump and fine-tuned controls into a tankless water heater, resolving the cold-water sandwich effect* and issues of minimal flow rates commonly found in other tankless water heaters.

* The "cold-water sandwich effect" is the undesired introduction of cold water into the hot water supply line on occasions of frequent on/off operations. (Measure Guideline : Transitioning to a Tankless Water heater, DOE, Sept.2012).

EZNav™

Multi-line control with built-in intuitive software

Navien's new backlit EZNav™ control panel uses simple text and icons to make set up, operation status and troubleshooting faster and easier than ever before.

NaviircTM

Optional NPE-2 recirculation valve

Designed for recirculation of domestic hot water in applications where a dedicated return line is not available. External pump necessary for NPE-S2 not included.

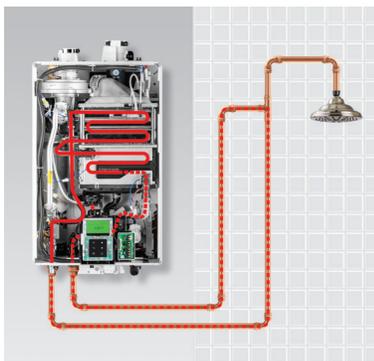

HotButton[®]

Optional NPE-2 hot water activation system

At the push of a button, the HotButton[®] hot water system activates internal recirculation pump and gas fired burner to heat water in the supply lines to provide hot water only when needed. NPE-2 comes with a built-in HotButton controller.

External pump necessary for NPE-S2 is not included.

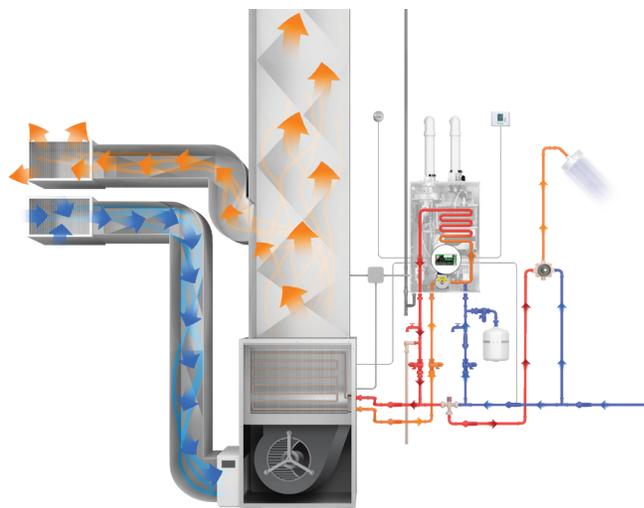

H2Air[®]

NPE-A2 combination heating & DHW system

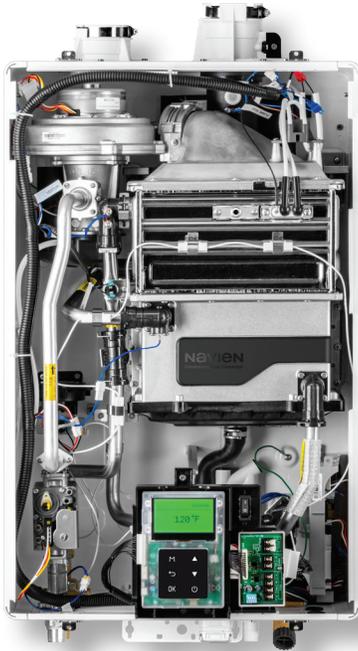

The optional H2Air[®] Kit utilizes the NPE-A2 pump to circulate the hot water for the hydronic air handler.

This removes the need to purchase an additional circulator for the heating system. Designed for retrofit and new construction, the Navien H2Air Kit includes an add-on controller to integrate space heating and DHW between any NPE-A2 Series tankless water heater and a hydronic air handler.

NPE-S2

NAVIEN PREMIUM EFFICIENCY STANDARD CONDENSING TANKLESS WATER HEATERS

Our standard ultra high efficiency tankless with higher performance and technology

When it comes to water heater performance... it's all about the output

The NPE-S2 condensing tankless water heaters are so efficient that they outperform much larger capacity non-condensing competitors. More output for the money, lower installation costs and lower operating costs for customers making it the best choice for your next installation.

Navien NPE-S2 condensing tankless water heaters outperform comparably priced non-condensing units

NON-CONDENSING

INPUT: 199,000 BTU/h

OUTPUT: ~163,000 BTU/h

NAVIEN NPE-S2

INPUT: 180,000 BTU/h

OUTPUT: ~178,000 BTU/h

| | Non-Condensing Tankless | Navien NPE-210S2 Condensing Tankless |
|-----------------------------|-------------------------|--------------------------------------|

| Overall | | Your Choice? |

Cascade up to 32 units and common vent up to 12 units

With Navien cascading technology, when a unit gets up to 80% capacity the next unit will turn on to help meet requirements. This demand ratio will continue until all 32 units are generating hot water. The Navien cascading system also balances out the workload of each unit for longer life. Building penetrations are reduced with Navien's common venting feature.

More innovative accessories for NPE-2 tankless water heaters

NaviLink® & NaviLink Lite™

Optional Wi-Fi remote control system

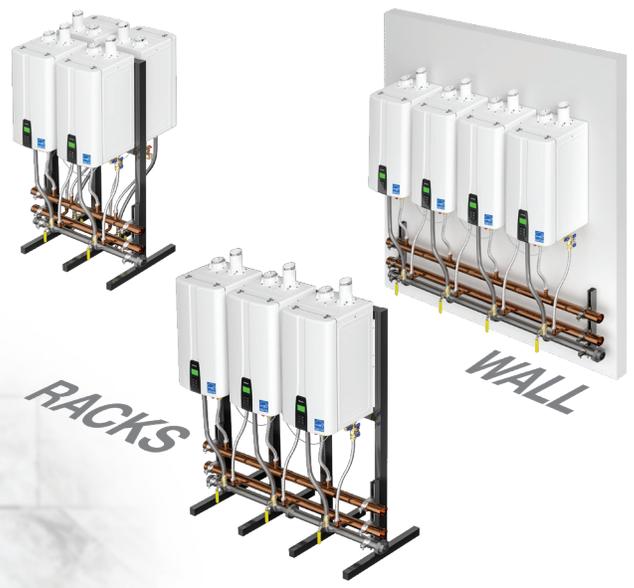

These add-on accessories will enable customers with smartphones and tablets to control temperatures remotely, access usage data and receive diagnostic notifications on all Navien NPE-A2 and NPE-S2 tankless water heaters. NaviLink can support up to 24 Navien units and NaviLink Lite can support 1 Navien unit.

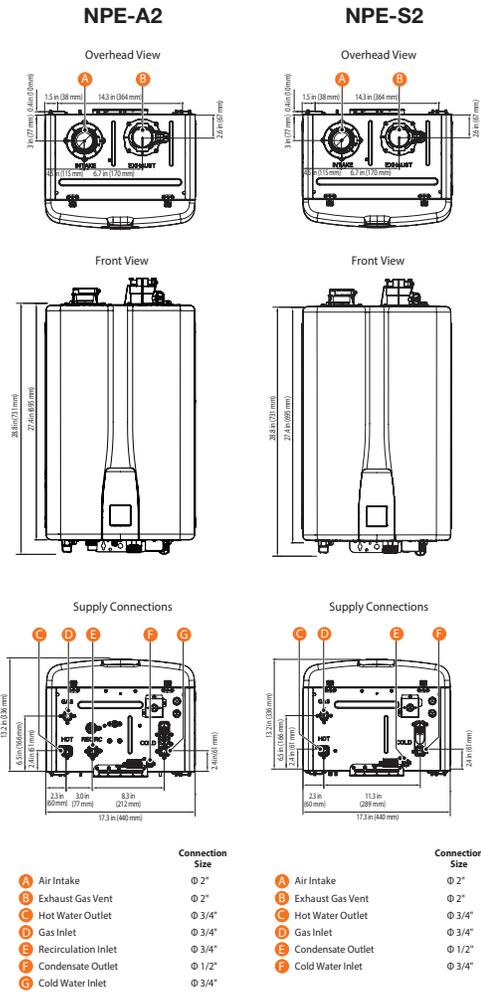

Ready-Link®

Modular manifold mounting on wall or rack

- Simply no waiting for custom racks
- Simply easy to install, easy to assemble
- Simply more profitable
- Simply visit your local Navien wholesaler and pick up everything you need for your installation today.
